### **Geoffrey Phillips Awarded Board Member of the Month**

Kids in Danger (KID) board member Geoffrey Phillips was recently awarded Board Member of the Month by Points of Light and BoardSource in 2013. This award honors individuals providing extraordinary board service by advancing the public good and creating meaningful change in communities.

*In addition to his board membership at KID, Geoff is the Vice President and Group Executive for NA Rail Services & Logistics at GATX Corporation. With Geoff's passion for delivering safe and effective transportation services to the industrial producers, it comes as little surprise that Geoff is an expert at steering his clients to safety. As a member of KID's Board of Directors, Geoffrey brings that expertise to help steer KID in the right direction and bring child product safety to the forefront of our nation's priorities.*

When joining the board in 2010, Geoff came on right as KID was beginning a strategic planning process. He got very involved in this process, helping to develop a focus and strategy for moving forward. Geoff has spearheaded numerous board task groups and committees including social media, working with Board Fellows, overseeing finances, and hiring new staff. Geoff, despite being a busy executive, traveling for work and an involved dad coaching sports teams, commits not only time, but thought and energy to KID.

KID congratulates Geoff on receiving this esteemed award, and thank him for his continued commitment to improving children's safety.
